

Template Week 7 – Host your website on GitHub

Student number: 591007

Domain name (URL) of your website on GitHub:

<https://tijn-lut.github.io/>

Relevant screenshots + motivation:

The screenshot shows the GitHub Pages settings for the repository `tijn-lut.github.io`. The main message indicates that the site is live at <https://tijn-lut.github.io/>, last deployed by `Tijn-Lut` 3 minutes ago. The `Build and deployment` section shows the source is set to `Deploy from a branch` and the branch is `main`. The `Custom domain` section is present but empty. The sidebar on the left lists various GitHub features like Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings, with `Pages` currently selected.

The screenshot shows the homepage of the website `tijn-lut.github.io`. The page has a navigation bar with links for `home`, `week 1`, `week 2`, `week 3`, `week 4`, `week 5`, `week 6`, and `week 7`. Below the navigation, the text "Hallo! Ik ben Tijn" is displayed, followed by "Dit zijn mijn hobby's: Tennissen, Gamen en Honden want dat zijn echt lieve beestjes". Three images are shown: a tennis racket and balls on a court, a person sitting at a desk with a computer monitor displaying a game, and a brown poodle sitting on a surface. A caption below the dog image reads "`<- Dit is mijn hond Aero!`".

Ready? Save this file and export it as a pdf file with the name: [week7.pdf](#)
